

To whom it may concern:

We are very glad of our decision to switch to AMS Infoshred for our document destruction services. Not only were our costs substantially lowered but the AMS team provides our facilities with a much greater degree of security yet manages to respond rapidly to changing requirements. They have no problems with providing extra containers given short notice but do not charge us more during our busier periods when they have to remove extra material. In fact their personnel go out of their way to ensure that if there are any additional containers that they are collected at time of service.

Since we have switched our confidence in our security process is much higher and I would heartily recommend looking at their proposal in more detail.
